PLAY UP YOUR POUT

Spring is the time to add a pretty punch of color to your everyday glossy-lip look. Apply lipstick to your lower lip only (we used L'Oréal Colour Juice Stick in Plum Crazy, \$9.50). Then apply gloss to your top lip only (we used Prestige Lightshine in Cabo, \$5). Smoosh lips together for the perfect color-shine combo (at right). Bonus: "The higher density of pigment on the lower lip creates a plumped-up, pouty effect," says Maybelline makeup artist Chuck Hezekiah.
